Fundamental analysis summary

Nestlé SA is a nutrition, health and wellness company, which engages in the manufacture, supply and production of prepared dishes and cooking aids, milk-based products, pharmaceuticals and ophthalmic goods, baby foods and cereals. During the last four years, Nestlé has managed to keep its gross profit at a steady level around 45 Billion. However, it managed to increase its net income as well as its profit margin due to exceptional revenues. Nestlé is a value company that doesn't grow much anymore but remains a leader through efficient management.

Technical analysis summary

Nestle's share price has been diving for the past few days. RSI level is entering the oversold range and up volume is starting to pick up, indicating a potential reversal situation.
